

Compatibility Overview

This document presents an overview of the operating systems, databases, Microsoft Office versions, browsers versions and other third party software TARGIT is compatible with. The tables contain the following characters to express compatibility:

√	Tested compatible
?	Non-tested but assumed compatibility
	Not compatible

Operating system compatibility

The following table displays compatibility with operating systems. Note that the ANTserver may run on client operating systems (Vista, 7, 8, 8.1 and 10), but it is recommended to use the Windows Server operating systems for this purpose.

1 – May support Analysis Services 2014 by using an Analysis Services 2012 connection.

2 – May support Analysis Services 2016 by using an Analysis Services 2014 connection.

3 – May support Analysis Services 2017 by using an Analysis Services 2016 connection.

4 – Requires the ADOMD.NET driver for SQL Server 2016

Compatibility Overview

Database compatibility (relational)

Relational database compatibility is displayed in the table below.

1 – Microsoft Office Compatibility Pack is required.

Compatibility Overview

Browser compatibility (Anywhere client)

The Anywhere client was introduced along with TARGIT Decision Suite 2014. Multiple browsers are supported for accessing TARGIT Anywhere. The latest versions of the following browsers have been tested and are supported. Older versions may also work but have not been tested. Especially note, that a lot of browsers and different browser versions may be supported on Android devices.

TARGIT Touch Server	Internet Explorer 9	Internet Explorer 10	Internet Explorer 11	Microsoft Edge	Chrome Windows & Mac	Firefox Windows & Mac	Safari Mac	Safari iOS 11	Safari iOS 12	Android Chrome
